PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience shipping scalable, performance-focused web applications with React, Next.js, and TypeScript, backed by Django/FastAPI services. Increasingly focused on automation and AI-driven workflows — building Python/Bash scripts, browser automation (Playwright, Selenium), n8n/Zapier pipelines, and AI agent integrations that eliminate manual work. Proven record of cutting load times and owning features end-to-end in remote, async teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), React Query, Redux/State Management, Responsive Design, Performance Optimization

Backend: Node.js, Express.js, Python, Django, FastAPI, REST API Design & Integration

Automation & Scripting: Python/Bash Scripting, Browser Automation (Playwright, Selenium), Workflow Automation (n8n, Zapier, Make), AI Agents & LLM API Integrations

Databases: PostgreSQL, MySQL, SQL Query Optimization

Tools & Practices: Git & Version Control, AI-Assisted Development (Claude, Cursor), Debugging & Profiling

PROFESSIONAL EXPERIENCE

Frontend Engineer

Avialdo Solutions — Karachi, Pakistan (On-site) | Dec 2024 – Present

- Ship scalable frontend features in React, Next.js, and TypeScript for production applications serving live users, owning work from design handoff through deployment.
- Designed and integrated RESTful APIs with Django and FastAPI, reducing redundant network calls and improving perceived page-load performance by ~90%.
- Built a library of reusable, typed UI components adopted across the product, cutting duplicate code and speeding up new feature development.
- Diagnosed and resolved complex cross-stack bugs spanning frontend rendering, API contracts, and data layers, reducing recurring production issues.
- Automated repetitive workflows with Python scripts, n8n/Zapier pipelines, and AI agent integrations, reducing recurring manual work from 12–13 hours to just 1–2 hours per week.

Frontend Developer

A Tech Sight LLC — Karachi, Pakistan | Aug 2023 – Nov 2024

- Delivered responsive, cross-browser UIs in React.js and Next.js across 31 production client projects, from marketing sites to data-heavy dashboards.
- Optimized rendering and asset delivery (code-splitting, memoization, image optimization) to improve load times and Core Web Vitals.
- Coordinated with backend developers, designers, and PMs across time zones to keep multiple client projects on track.

Next.js Developer

Khas Technologies — Remote | Jan 2023 – Aug 2023

- Built the core user-facing UI for a matrimonial matching platform in Next.js — profile creation, search, and match workflows — with responsive UX across mobile and desktop.
- Established reusable page layouts and form patterns that shortened build time for subsequent screens.

EDUCATION

BS Computer Science

Virtual University, Karachi | 2024
